Authorities in India have launched an investigation following the deaths of nine children in two central states of the country, amid suspicions that the fatalities may be linked to the consumption of contaminated cough syrups, official sources reported.

"The multidisciplinary team continues the analysis of samples and other factors to determine the cause of the reported deaths in Chhindwara, in the state of Madhya Pradesh," said the Indian Ministry of Health and Family Welfare in a statement.

Mark Sánchez is discharged, but is sent directly to jail.
